

# NDJOGOU MPIRA OKOUMBA

## David Loic

Information Technology student | Software Engineering

ndjogoudaviddev@gmail.com | bdc.is-a.dev  
github.com/ndjogoudavid | linkedin.com/in/ndjogoudavid

### PROFILE

Software engineering student with hands-on experience building web, desktop and mobile applications. Strongest in Java and full-stack development, with project work in application workflows, data storage and team software coursework.

### SELECTED COMPLETED PROJECTS

#### Pharmacy Management System - Desktop

Java | PostgreSQL | Solo project, 2025  
Built pharmacy inventory, sales, customer, supplier and reporting workflows.

#### Pharmacy Management System - Web

Spring Boot | React | PostgreSQL | JWT, 2025  
Built a separate web application for medicines, prescriptions, billing and role-based access.

#### Household Chore Manager

Spring Boot | Thymeleaf | PostgreSQL | Docker, 2025  
Built a task-scheduling application with persistent storage and automated tests.

#### Immunization Planner & Tracker

Android / Java | Firebase | HL7 FHIR | Team coursework, 2026  
Worked on a team application for child vaccination schedules and records.

#### BloodDonorSystem

ASP.NET / C# | SQL Server | Team coursework, 2025  
Used C# and ASP.NET to complete a team semester project.

### CONTACT

Kigali, Rwanda

### EDUCATION

#### AUCA

BSc Information Technology  
Major: Software Engineering  
2022 - present

#### Lycée Jacques Prévert

French Scientific Baccalaureate  
2016 - 2019

### TECHNICAL SKILLS

#### Languages

Java, JavaScript, HTML/CSS, SQL

#### Also used

C# in semester coursework; basic Python

#### Frameworks

Spring Boot, React, Node.js / Express,  
ASP.NET coursework

#### Data & tools

PostgreSQL, MySQL, SQL Server, Git,  
GitHub, Docker

#### Concepts

REST APIs, relational data modeling,  
object-oriented programming, testing

### CERTIFICATES

#### AUCA

English Proficiency I & II  
Intermediate, 90 hours

Cisco Networking Academy  
Advanced Network Operations 2.0  
Networking Essentials  
Operating Systems Basics
